

NextStep Resume — Complete Launch Readiness Audit Report

Date: June 17, 2026
URL: <https://nextstep-resume-mvp.vercel.app/>
Product: NextStep Resume — AI Resume Platform for Indian Job Seekers
Audit Scope: First impression, UX flows, login, mobile QA, trust, competitors, pricing, SEO, bugs

Executive Summary

NextStep Resume has a **well-designed landing page** with strong visual appeal, compelling copy, and a clear value proposition for Indian job seekers. The page structure is thoughtful — it walks users through every feature with demo mockups, clear CTAs, Indian language support, and trust signals. The backend infrastructure exists (12 Supabase edge functions for ATS analysis, live interviews, payments, etc.).

However, the product is not ready for launch. The landing page is a beautiful brochure with **zero backend connectivity**. Both login methods (Google and Email OTP) are non-functional dead buttons — they have no onClick handlers. Only 4 out of ~20 buttons on the entire page actually do anything (3 navbar buttons that open the auth modal + logo). Every CTA on the page either does nothing or links to non-existent anchors. The FAQ contains "coming soon" disclaimers that contradict the marketing copy. The pricing on the live site (₹0/₹99/₹499) doesn't match the proposed strategy (₹29/₹29/₹49).

Launch Readiness Score: 28 / 100

[CAUTION]
Go/No-Go: ❌ NO-GO — The app cannot accept a single user today. Authentication is completely non-functional. No user flow completes beyond viewing the landing page. The backend exists but the frontend doesn't connect to it.

TASK 1: First Impression Review

First Impression Score: 72 / 100

The landing page *looks* excellent for a first visit. It would score 85+ if the functional issues were fixed.

✔ What Works Well

Element	Assessment
Headline clarity	"Build a Job-Ready Resume and Prepare with AI" — instantly clear
India-first badge	"Built for Indian job seekers across industries" — strong positioning
3 core actions visible	Create Resume, Scan Resume, Live AI Mock Interview — above the fold ✔
Language is simple	Written for first-time users, no jargon, encouraging tone
Visual design	Clean, professional, modern — Inter font, blue/white/gray palette, lucide icons
Feature demos	Mock ATS result (64/100), mock interview result (72/100) — builds trust
Indian language list	English, Hindi, Marathi, Tamil, Telugu, Bengali, Gujarati shown
Trust signals	"Built in India, for India", Privacy/Security icons, UPI-friendly
Login visibility	Login + Create Account in navbar, "Get Started" CTA is prominent
Section flow	Logical progression: Hero → Actions → Value → How → Features → Pricing → Trust
Design polish	Gradient accents, hover animations, shadow elevation, skeleton mockups

⚠ What Feels Confusing

Issue	Details
Title mismatch	Browser tab says "AI Resume Platform for Engineers" but hero says "Indian job seekers across industries"
FAQ contradicts positioning	FAQ says "optimized for engineering and data center roles" while everything else says "every job seeker"
"Coming soon" in FAQ	FAQ answers say "AI integration coming soon" and "PDF generation coming soon" — undermines credibility
Buttons don't work	Every "Create Account" CTA on the page is a dead button — no navigation or modal trigger
Core action links broken	Cards link to #builder, #scan, #interview — no sections have these IDs
Pricing mismatch	Live site shows ₹0/₹99/₹499 but proposed pricing is ₹29/₹29/₹49
No section navigation	Navbar has no links to Features, Pricing, FAQ — users must scroll the entire page

● Must Fix Before Launch

- Fix page title to match "Indian job seekers" positioning
- Fix meta description (currently says "engineering and data center roles")
- Remove "coming soon" from FAQ — either the feature works or don't mention it
- Make all CTAs functional — at minimum, open the auth modal
- Fix FAQ content to match "all job seekers" positioning
- Add nav links to key sections (Features, Pricing, FAQ)

TASK 2: Public User Flow Testing

Button Functionality Audit

Button	Location	Works?
Login	Navbar	✔ Opens auth modal
Create Account	Navbar	✔ Opens auth modal
Get Started	Navbar	✔ Opens auth modal
Create Account →	Hero	❌ No onClick
See How It Works	Hero	❌ No onClick
Build Your Resume →	Core Actions	❌ Broken anchor #builder
Scan Your CV →	Core Actions	❌ Broken anchor #scan
Start Mock Interview →	Core Actions	❌ Broken anchor #interview
Try It Now →	How It Works	❌ No onClick
Create Account to Build Resume →	Resume Builder	❌ No onClick
Create Account to Scan CV	Upload Resume	❌ No onClick
Create Account to Scan Your CV →	ATS Scan	❌ No onClick
Create Account to Scan CV →	Job Readiness	❌ No onClick
Create Account to Start Interview →	Live Interview	❌ No onClick
Practice Again	Interview Result	❌ No onClick
Switch Result Language	Interview Result	❌ No onClick
Create Account / Pay / Choose Plan Pricing (×3)		❌ No onClick
Share on WhatsApp	Referral	❌ No onClick
Continue with Google	Auth Modal	❌ No onClick
Continue with Email OTP	Auth Modal	❌ No onClick

Result: Only 4 out of ~20 buttons work. Even the auth modal they open contains non-functional login buttons.

Flow 1: Create Resume

Check	Result
Did it work?	✗ No
Was login required?	N/A — button doesn't function
What happens?	Nothing. "Build Your Resume →" links to #builder (no such section). "Create Account to Build Resume →" has no onClick.
User guided?	Helper text "Sign in to save and download your resume" is good ✓ , but CTA is dead
Where it broke	First click — all CTAs are dead buttons
Recommended fix	Wire buttons to open AuthenticationModal or navigate to /builder in the app
Priority	● Critical

Flow 2: Scan Resume

Check	Result
Did it work?	✗ No
Was login required?	N/A — button doesn't function
What happens?	"Scan Your CV →" links to #scan (no such anchor). Other CTAs have no onClick.
User guided?	"First-time users get 1 ATS scan included after signup" — excellent copy ✓
Where it broke	Dead button/broken anchor
Priority	● Critical

Flow 3: Live AI Mock Interview

Check	Result
Did it work?	✗ No
What happens?	"Start Mock Interview →" links to #interview (no such anchor).
Language/difficulty selectors visible?	✓ Yes — 7 Indian languages + 3 difficulty levels shown on landing page mockup
Were selectors functional?	The <select> and toggles render but are within a static demo, not connected to any flow
Priority	● Critical

Flow 4: PDF Download

Check	Result
Did it work?	✗ No — Cannot reach resume builder
Blocked by	Login + dead CTAs
Priority	● Critical (blocked by upstream issues)

TASK 3: Login UX Review

Login UX Score: 35 / 100

The visual design of the login modal is clean and professional. However, **neither login method works**.

Login Test Results

Check	Google Login	Email OTP
Button visible?	✓ "Continue with Google" with Google colored-G icon	✓ "Continue with Email OTP" with mail icon
Does it open?	✗ No — button has no onClick handler	✗ No — button has no onClick handler
Does it complete?	✗ No	✗ No
Error message?	✗ None — silent failure (nothing happens)	✗ None — silent failure
Friendly error?	✗ No error shown	✗ No error shown
Can user return safely?	✓ Yes — X button closes modal	✓ Yes — same
Priority	● Critical	● Critical

[WARNING]

Confirmed from code: The landing app (apps/landing/src) has **zero Supabase imports**. The auth buttons are purely visual <button> elements. This is not a "broken OAuth" issue — authentication was never wired.

Login UX Issues

#	Issue	Priority
1	Both login methods are dead buttons with no event handlers	● Critical
2	No error feedback when clicking dead buttons — user confusion	● Critical
3	Terms/Privacy in auth modal are plain text, not clickable links	● High
4	No post-login redirect logic to preserve user intent	● High
5	Auth modal description text is good ✓	—

Suggested Copy Improvements

Current	Suggested
"Welcome back" (login)	"Welcome back to NextStep"
"Create an account" (signup)	"Join NextStep — it takes 10 seconds"
Auth modal description	"Save your resumes, ATS reports, and interview history in one place. Your first ATS scan is included."

Launch Risk Level:

●

 CRITICAL — Zero users can create accounts

TASK 4: Mobile QA

Mobile Usability Score: 65 / 100 (code-based assessment)

✓

 Mobile-Ready Elements

Element	Handling
Viewport meta	✓ width=device-width, initial-scale=1.0
Hamburger menu	✓ Shows on md:hidden, collapses nav items
Hero text	✓ Responsive: text-4xl md:text-5xl lg:text-6xl
Core action cards	✓ Stack grid md:grid-cols-3 → single column on mobile
Pricing cards	✓ Stack grid md:grid-cols-3

Footer	✔ Stacks: grid grid-cols-1 md:grid-cols-2 lg:grid-cols-4
CTAs	✔ Full width: w-full sm:w-auto
Font	✔ Inter — excellent readability
Touch targets	✔ Buttons use py-3/py-4 (adequate for 48px+ touch targets)
Auth modal	✔ max-w-md with p-8 fits 375px

● Mobile Issues

#	Issue	Details	Priority
1	Floating badges overflow	Hero ATS Score badge uses <code>absolute -left-10</code> — causes horizontal scroll at 375px	● Critical
2	No overflow prevention	No <code>overflow-x-hidden</code> on body — floating elements cause horizontal scroll	● High
3	Interview inputs cramped	<code>grid-cols-2</code> for company/role inputs too tight at 375px	● Medium
4	Resume mockup height	<code>aspect-[1/1.2]</code> pushes content far below fold on mobile	● Medium
5	ATS result layout	Score circle <code>w-24 h-24 + flex gap-6</code> may overflow narrow screens	● Medium

Fix Recommendations

1. Add `overflow-x-hidden` to the body or main wrapper
2. Add `hidden lg:flex` to floating hero badges to hide on mobile
3. Change interview inputs to `grid-cols-1 sm:grid-cols-2`
4. Test at 375px (iPhone SE), 390px (iPhone 14), 414px (budget Android)

TASK 5: Trust & Privacy Review

Trust Score: 45 / 100

Trust Signals Assessment

Signal	Present?	Functional?	Notes
Privacy message	✔ "Your data stays private. We never sell your information."	Visual only	Good copy, no link to policy
Privacy Policy link	✔ In footer	✗ <code>href="#"</code>	Dead link
Terms of Service	✔ In footer + auth modal	✗ <code>href="#"</code> / plain text	Dead link / not clickable
Contact info	✔ "Contact" in footer	✗ <code>href="#"</code>	Dead link
WhatsApp Support	✔ In footer	✗ <code>href="#"</code>	Should be <code>https://wa.me/91XXXXXXXXXX</code>
Founder/company info	✗ Missing	—	No About page, no founder name
Physical address	✗ Missing	—	Required under IT Act
DPDP Act compliance	✗ Missing	—	India's data protection law requires consent notices
Refund policy	✗ Missing	—	Required for paid products
SSL/HTTPS	✔	✔	Vercel provides HTTPS

Must-Have Trust Additions

1. **Working Privacy Policy page** at `/privacy`
2. **Working Terms of Service page** at `/terms`
3. **Contact email** (e.g., `hello@nextstep.in`)
4. **Working WhatsApp link** with real number
5. **Founder/About section** — "Built by [Name] from [City]"
6. **Refund policy** for paid features
7. **Data storage disclosure** — "Your data is stored securely on Indian servers" (if applicable)

Suggested Trust Copy

"Your resume data is encrypted and stored securely. We never sell your information to recruiters, job portals, or anyone else. Your career journey is private."

"NextStep is built by [Founder Name] in India, for Indian job seekers. Questions? Reach us on WhatsApp at [number] or email `hello@nextstep.in`"

TASK 6: Competitor Research

Full Comparison Table — Indian Competitors

Competitor	Key Features	Pricing (INR)	Free Tier	Mock Interview	Indian Language
Resumod	AI resume builder, ATS scoring, LinkedIn import, 20+ templates	Freemium	✔ Generous	Basic AI questions	✗
Hiration	Full career suite: resume, cover letter, LinkedIn, interview prep	₹2,100/mo; ₹8,400/yr	✔ Limited	✔ AI-powered	✗
Naukri Resume	Builder integrated with Naukri portal, FastForward score	Free with Naukri account	✔	✗	✗
Internshala	AI resume builder, ATS-friendly PDFs, resume parsing	100% Free	✔ Fully free	✗	✗
StylingCV	40+ templates, ATS checker (50+ systems), AI keywords	Free; Pro ~₹299/mo	✔	✗	Partial
KarmSakha	Hindi resume support, government job focus	Free/Low-cost	✔	✗	✔ Hindi
AceInterview	AI mock interviews	100% Free	✔	✔ Free	✗
MockitX	Human HR + tech mock interviews	~₹1,199/session	✗	✔ Human	✗
InterviewBuddy	Live mock interviews with experts	₹499-999/session	✗	✔ Human	Hindi/English

Full Comparison Table — Global Competitors

Competitor	Key Features	Pricing (INR equiv.)	Free Tier	Mock Interview
Teal	Job tracker, AI resume, cover letter, keyword matching	~₹2,436/mo	✔ Generous	✗
Jobscan	ATS precision scoring (Workday/Greenhouse/iCIMS specific)	₹2,096-₹4,196/mo	✔ Limited	✗
Zety	Large template library, visual design	~₹2,016/mo	✗ (paywall at download)	✗
Rezi	ATS-first, 23-metric Rezi Score, lifetime option	~₹2,436/mo; Lifetime ₹12,516	✔ Limited	✗
Resume.io	25+ templates, established brand	~₹2,096/mo	Trial only	✗
Novoresume	Strong design, content suggestions	~₹1,680/mo	✔ (1-page)	✗
Enhancv	Premium templates, executive-level	₹1,260-₹2,100/mo	✗	✗
Kickresume	Student-friendly, AI writer	~₹672-₹1,596/mo	✔ Limited	✗
Canva Resume	1000s visual templates	Free; Pro ~₹499/mo	✔	✗
Final Round AI	AI interview copilot, real-time support, mock interviews	₹2,100-₹12,432/mo	Trial	✔ AI voice
Interviewing.io	Anonymous mock with FAANG engineers	₹15,036-₹28,476/session	✗	✔ Human

Feature Comparison — NextStep vs. Market

Feature	NextStep	Resumod	Hiration	Jobscan	Teal	Final Round AI
Resume Builder	✔	✔	✔	✗	✔	✗

ATS Scanner	☑	☑ (basic)	☑ (best)	☑	✗
AI Voice Mock Interview	☑ (7 languages)	✗	✗	✗	☑ (English only)
AI Resume Improvement	☑	✗	☑	✗	☑
Indian Language Support	☑ (7 languages)	✗	✗	✗	✗
PDF Download	☑	☑	☑	☑	✗
Job Description Match	☑	✗	☑	☑	✗
Mobile-First	☑	⚠	⚠	✗	⚠
UPI Payment	☑ (Razorpay)	✗	✗	✗	✗
All-in-One	☑	✗	⚠	✗	✗
Starting Price	₹29	Free/₹149	₹2,100/mo	₹2,096/mo	₹2,436/mo
			₹2,100/mo		

Competitive Positioning Map

NextStep's Unique Position

NextStep is the **only platform** combining all three pillars (Resume Builder + ATS Checker + AI Voice Interview) in 7 Indian languages at India-friendly pricing with Razorpay-native UPI payments. No competitor matches this combination at any price point.

Gap Opportunities

Gap	Details	NextStep Opportunity
Affordable pricing	Global tools charge ₹1,500-₹4,000/mo; Indian users constantly complain	₹29-₹499 fills perfectly
Hindi/Regional language resumes	Only KarmSakha has Hindi (govt jobs only). NO tool supports Tamil, Telugu, etc.	Massive untapped market
India-specific resume fields	CGPA, Father's name, DOB, Languages — most global tools lack these	Build India-specific templates
Combined resume + interview	NO Indian competitor does both	Unique differentiator
Live voice AI interview	Most offer text-only	Major differentiator
Pay-per-use model	Most force monthly subscriptions	Standout for budget users
WhatsApp integration	No competitor offers WhatsApp sharing/notifications	Viral potential
Government job templates	Huge underserved market (SSC, UPSC, State PSC)	Future expansion

TASK 7: Pricing Validation

Proposed vs. Current Pricing

Pack	Proposed (Your Plan)	Currently on Live Site	Match?
Free / Account Required	—	₹0 (1 resume, 1 scan, limited interview)	✗ Different
Resume Pack	₹29	₹99/use (Pay Per Use)	✗ Different
Interview Pack	₹29	(included in ₹99/use)	✗ Different
Get Job Ready Pack	₹49	₹499/mo (Pro)	✗ Different

[!IMPORTANT]
The live site pricing is **completely different** from the proposed strategy. The site must be updated before launch.

Proposed Pricing Evaluation

Question	Answer
Is ₹29 too cheap?	Slightly — may feel "too good to be true." Solution: show struck-through original price (₹499 ₹29)
Is it fair?	☑ Very fair for Indian tier-2/3 users
Most likely to sell?	Get Job Ready Pack (₹49) — best perceived value
What to recommend?	Highlight ₹49 as "RECOMMENDED" / "BEST VALUE"
Sustainability risk?	At ₹29 (~\$0.35), AI API costs could eat margins. Limit to 1 scan + 1 download per pack.

Recommended Pricing Display

	📄 Resume Pack	🎧 Interview Pack	🌟 Get Job Ready
Price	₹499 ₹29	₹499 ₹29	₹399 ₹49
Badge	—	—	BEST VALUE
Includes	☑ Resume Builder ☑ PDF Download ☑ AI Summary ☑ ATS Scan ☑ ATS Optimization	☑ 1 Mock Interview ☑ Interview Feedback ☑ Interview Score ☑ Language Selection	☑ Everything in both packs ☑ Save ₹9
CTA	"Build My Resume"	"Start Practicing"	"Get Job Ready — ₹49"
Sub-CTA	One-time payment	One-time payment	Everything you need. One price.

Pricing Copy Suggestions

- Hero: "Start at just ₹29 — less than a cup of chai"

- **Urgency:** "Launch price. Will increase after [date]."
- **Trust:** "No hidden fees. No subscription. Pay once, use once."
- **Comparison:** "Competitors charge ₹1,500+/month. You pay ₹49. Once."

TASK 8: SEO & Content Review

SEO Score: 25 / 100

Current SEO Status

Element	Current State	Issue
Page Title	"NextStep - AI Resume Platform for Engineers"	✗ Wrong audience
Meta Description	"...focused on engineering and data center roles..."	✗ Wrong audience
H1	"Build a Job-Ready Resume and Prepare with AI"	⚠ Good but no "India" keyword
H2s	Multiple throughout sections	☑ Good hierarchy
OG Tags	✗ Missing	No og:title, og:description, og:image
Twitter Card	✗ Missing	No twitter:card meta tags
Canonical URL	✗ Missing	
Favicon	✗ Missing	No favicon in HTML
Structured Data	✗ Missing	No JSON-LD for FAQ or SoftwareApplication
Internal Links	✗ All footer links → #	No real internal linking
robots.txt	✗ Unknown	Not configured
sitemap.xml	✗ Likely missing	SPA without SSR won't auto-generate

Recommended Title

NextStep — Free AI Resume **Builder** & Mock Interview Practice for Indian **Job** Seekers

Recommended Meta Description

Create ATS-friendly resumes, **scan** your CV **score**, and practice AI mock interviews in Hindi, English & **5** more Indian languages. **Built** for freshers & professionals. Start **at ₹29**.

Missing Meta Tags to Add

```
<meta property="og:title" content="NextStep — AI Resume Builder for Indian Job Seekers" />
<meta property="og:description" content="Build resumes, check ATS score, practice mock interviews in your language. Starting at ₹29." />
<meta property="og:type" content="website" />
<meta property="og:url" content="https://nextstep-resume-mvp.vercel.app/" />
<meta property="og:image" content="/og-image.png" />
<meta name="twitter:card" content="summary_large_image" />
<link rel="canonical" href="https://nextstep-resume-mvp.vercel.app/" />
<link rel="icon" type="image/png" href="/favicon.png" />
```

Target SEO Keywords

Keyword	Priority
resume builder India	● Must target
ATS resume checker India	● Must target
AI resume builder	● Must target
free resume builder India	○ High
ATS friendly resume template	○ High
mock interview practice	○ High
AI interview practice	○ High
resume ATS score	○ High
interview practice Hindi	● Low competition opportunity

FAQ Improvements Needed

Current issues:

- Q1 says "Is this only for engineers?" — contradicts hero positioning
- Q2 says "data center roles" — too narrow
- Q4 says "AI integration coming soon" — contradicts marketing
- Q5 says "PDF generation coming soon" — contradicts marketing
- No FAQ structured data markup for Google rich results

Suggested replacement questions:

1. "Who is NextStep Resume built for?"
2. "What types of jobs does NextStep support?"
3. "Are NextStep resumes ATS-friendly?"
4. "How does the AI mock interview work?"
5. "Can I download my resume as PDF?"
6. "Is my resume data safe and private?"
7. "How much does NextStep cost?"
8. "Can I use NextStep on my mobile phone?"
9. "What Indian languages are supported?"
10. "What is an ATS score and why does it matter?"

TASK 9: Bug & Launch Readiness Report

● Critical Bugs (Launch Blockers) — 3 issues

BUG-001: Google Login Button Non-Functional

- **Issue:** "Continue with Google" button has no onClick handler
- **Impact:** No user can create an account via Google
- **Steps:** Click "Get Started" → Auth modal → "Continue with Google" → Nothing happens
- **Root Cause:** Landing app has zero Supabase imports — auth was never wired
- **Fix:** Import Supabase client, wire button to signInWithOAuth({ provider: 'google' })
- **Priority:** ● Critical — Launch Blocker

BUG-002: Email OTP Button Non-Functional

- **Issue:** "Continue with Email OTP" button has no onClick handler

- **Impact:** No alternative login method works
- **Steps:** Click "Continue with Email OTP" → Nothing happens
- **Fix:** Wire to show email input → call `signInWithOtp({ email })`
- **Priority:** 🟡 Critical — Launch Blocker

BUG-003: All Landing Page CTAs Are Dead Buttons (~16 buttons)

- **Issue:** Every CTA except navbar buttons has no `onClick/href`
- **Impact:** User cannot start any feature flow from the landing page
- **Steps:** Click any blue "Create Account to..." button → Nothing happens
- **Fix:** Wire buttons to open `AuthenticationModal` or navigate to app routes
- **Priority:** 🟡 Critical — Launch Blocker

🟡 High-Priority Fixes — 6 issues

BUG-004: Core Action Card Links Broken

- **Issue:** Links point to `#builder`, `#scan`, `#interview` — no sections have these IDs
- **Fix:** Add `id` attributes to matching sections, or wire links to open auth modal
- **Priority:** 🟡 High

BUG-005: All Footer Links Point to #

- **Issue:** About, Privacy Policy, Terms, Contact, WhatsApp Support, Login, Create Account — all dead
- **Fix:** Create Privacy/Terms pages. Wire Login/Create Account to auth modal. Add real WhatsApp link
- **Priority:** 🟡 High

BUG-006: Terms/Privacy in Auth Modal Not Clickable

- **Issue:** Legal text is plain text, not links
- **Fix:** Make them `<a>` tags linking to `/terms` and `/privacy`
- **Priority:** 🟡 High

BUG-007: FAQ Contains "Coming Soon" Disclaimers

- **Issue:** "AI integration coming soon" and "PDF generation coming soon" contradict marketing
- **Fix:** Remove or rewrite. Don't promise timelines if features exist.
- **Priority:** 🟡 High

BUG-008: Pricing Mismatch

- **Issue:** Live site shows ₹0/₹99/₹499. Proposed is ₹29/₹29/₹49.
- **Fix:** Update `[Pricing.tsx](file:///c:/NextStep/apps/landing/src/sections/Pricing.tsx)`
- **Priority:** 🟡 High

BUG-009: Page Title & Meta Description Wrong Audience

- **Issue:** Says "for Engineers" and "engineering and data center roles"
- **Fix:** Update `[index.html](file:///c:/NextStep/apps/landing/index.html)` to target "Indian job seekers"
- **Priority:** 🟡 High

🟡 Medium-Priority Improvements — 5 issues

BUG-010: Hero Floating Badges Cause Horizontal Scroll on Mobile

- **Issue:** `absolute -left-10` overflows on 375px screens
- **Fix:** Add `hidden lg:flex` to hide on mobile
- **Priority:** 🟡 Medium

BUG-011: No OG Tags / Social Sharing Meta

- **Issue:** No `og:title`, `og:image`, `twitter:card`
- **Fix:** Add OG meta tags to `[index.html](file:///c:/NextStep/apps/landing/index.html)`
- **Priority:** 🟡 Medium

BUG-012: No Favicon

- **Issue:** No favicon in HTML
- **Fix:** Create NextStep favicon and add `<link rel="icon">`
- **Priority:** 🟡 Medium

BUG-013: WhatsApp Share Button Non-Functional

- **Issue:** "Share on WhatsApp" button has no `onClick`
- **Fix:** Wire to `https://wa.me/?text=Check%20out%20NextStep%20Resume%20...`
- **Priority:** 🟡 Medium

BUG-014: No 404/Error Page

- **Issue:** Non-existent routes likely show blank page
- **Fix:** Add catch-all route with friendly error page
- **Priority:** 🟡 Medium

🟡 Low-Priority Polish — 4 issues

BUG-015: FAQ Not SEO-Optimized + No Schema Markup

- **Fix:** Rewrite questions, add JSON-LD FAQ schema
- **Priority:** 🟡 Low

BUG-016: No Loading State for SPA

- **Issue:** Blank white screen during JavaScript load
- **Fix:** Add spinner/skeleton to `<div id="root">` in HTML
- **Priority:** 🟡 Low

BUG-017: "See How It Works" Button Doesn't Scroll

- **Fix:** Add onClick to smooth-scroll to #how-it-works section
- **Priority:** 🟡 Low

BUG-018: No "Back to Top" Button

- **Issue:** 17 sections, long page, no quick return to top
- **Fix:** Add floating back-to-top button
- **Priority:** 🟡 Low

Top 10 Must-Fix Items Before Launch

#	Item	Category	Priority
1	Wire Google OAuth login to Supabase	Authentication	🔴 Critical
2	Wire Email OTP login to Supabase	Authentication	🔴 Critical
3	Connect ALL CTA buttons to auth modal or app navigation	UX	🔴 Critical
4	Fix page title & meta description for Indian job seekers	SEO	🟡 High
5	Create Privacy Policy and Terms of Service pages	Trust/Legal	🟡 High
6	Update pricing section to ₹29/₹29/₹49 strategy	Pricing	🟡 High
7	Remove "coming soon" from FAQ + fix engineer-only positioning	Content	🟡 High
8	Fix all footer links (real pages, WhatsApp, auth modal)	Trust	🟡 High
9	Fix hero floating badge overflow on mobile	Mobile	🟡 Medium
10	Add OG tags, favicon, and canonical URL	SEO/Brand	🟡 Medium

Top 10 Improvements After Launch

#	Item	Category
1	Add JSON-LD structured data (FAQ schema, SoftwareApplication)	SEO
2	Add customer testimonials / social proof section	Trust
3	Add LinkedIn resume import feature	Feature
4	Create blog for SEO ("How to write an ATS resume in India")	Growth
5	Add WhatsApp sharing with referral tracking	Growth
6	Add loading skeleton for SPA initial load	UX
7	Add more resume templates (currently 1)	Feature
8	Add "About" page with founder story	Trust
9	Add PWA support for mobile install	Mobile
10	Add analytics (Google Analytics / Mixpanel) for user behavior	Data

Final Scores Summary

Category	Score	Status
Overall Launch Readiness	28/100	🔴 Not Ready
First Impression (Visual)	72/100	🟡 Great design, broken functionality
Login UX	35/100	🔴 Both methods non-functional
Mobile Usability	65/100	🟡 Responsive structure, overflow bugs
Trust & Privacy	45/100	🟡 Missing legal pages, contact info
SEO	25/100	🔴 Wrong title, no OG tags, no schema
Pricing Strategy	80/100	✅ Excellent for India market
Competitor Positioning	85/100	✅ Unique all-in-one with Indian languages

Final Go/No-Go Recommendation

❌ NO-GO for Public Launch

Core Reason: Zero functional user flows. The app has a working backend (12 Supabase edge functions) and a beautiful frontend, but they are not connected. Both authentication methods are non-functional dead buttons. No user can create an account, build a resume, scan a CV, or start a mock interview.

Recommended Path to Launch

Week	Action
Week 1	Fix authentication (Google OAuth + Email OTP via Supabase). Wire all CTAs to auth modal → post-login redirect.
Week 1	Fix SEO (title, meta, OG tags, favicon). Update pricing to ₹29/₹29/₹49.
Week 2	Create Privacy Policy and Terms pages. Fix footer links. Fix FAQ content.
Week 2	Mobile QA pass at 375px. Fix floating badge overflow.
Week 3	End-to-end testing: Create Account → Build Resume → Scan → Interview → Download.
Week 3	Razorpay payment flow testing (test mode).

✅ What's Already Strong (Don't Change)

- Landing page design quality — clean, professional, modern
- India-first positioning and messaging
- 7 Indian language support concept
- Pricing strategy (₹29/₹49 is market-disrupting)
- Feature set concept (Resume + ATS + Interview all-in-one)
- Copy quality — simple, clear, encouraging
- Hero section with animated mockups
- Core actions card layout
- Interview setup UI with language/difficulty selectors
- ATS scan result mockup — builds trust
- Backend infrastructure — 12 edge functions ready
